## PREFACE

The editors have not attempted to produce here a summary of all of the new data and ideas which have developed in the past year throughout the broad field of internal medicine. Rather, as in the case of previous issues, this volume contains review articles which treat in depth various areas in which there have been remarkable recent advances in information and insight. A wide range of subject matter is covered, and the topics have been selected both for their general interest and for their intellectual and scientific importance. Some chapters, as the one on myasthenia gravis and the thymus, describe the culmination of many years of research by many investigators. Others, as the one on antigenic reversion in human cancer, describe work which is more recent in its origin and development.

The editors are grateful to the authors who have so generously contributed of their time and knowledge, to the George Banta Company, Inc. and the excellence of printing and skill which they bring to the production of these volumes, and to the Assistant Editor, Miss Beryl V. Daniel, who has presided with her usual effectiveness over the conception, gestation, and parturition of this volume.

THE EDITORIAL COMMITTEE

## REPRINTS

The conspicuous number (7000 to 7025) aligned in the margin with the title of each chapter in this volume is a key for use in the ordering of reprints.

The sale of reprints for all *Annual Review* volumes was initiated in July 1970. Reprints of most articles published in the *Annual Reviews of Biochemistry and Psychology* from 1961 to 1970 and the *Annual Reviews of Microbiology and Physiology* from 1968 to 1970 are now maintained in inventory.

Available reprints are priced at the uniform rate of \$1 each, postpaid. Payment must accompany orders less than \$10. The following discounts will be given for large orders: \$5-9, 10%; \$10-24, 20%; \$25 and over, 30%. All remittances are to be made payable to Annual Reviews, Inc. in US dollars. California orders are subject to a sales tax. One-day service is given on items in stock.

For orders of 100 or more, any *Annual Review* article will be specially printed and shipped within 6 weeks. Reprints which are out of stock may also be purchased from the Institute for Scientific Information, 325 Chestnut Street, Philadelphia, Pa. 19106. Direct inquiries to the Reprint Department, Annual Reviews, Inc.

The sale of reprints of articles published in the *Reviews* has been expanded in the belief that reprints as individual copies, as sets covering stated topics, and in quantity for classroom use will have a special appeal for students and teachers.

# REVIEWS

The first volume of the series, 'The History of the English Language', is a comprehensive survey of the language from its earliest roots to the present day. It covers the development of the language in its various forms, from Old English to Modern English, and includes a detailed account of the influence of foreign languages on the English vocabulary. The second volume, 'The History of the English Literature', is a survey of the literature of the English-speaking world, from the Middle Ages to the present. It covers the development of the literature in its various forms, from the epic to the novel, and includes a detailed account of the influence of foreign literature on the English literature. The third volume, 'The History of the English Thought', is a survey of the thought of the English-speaking world, from the Middle Ages to the present. It covers the development of the thought in its various forms, from the philosophy to the science, and includes a detailed account of the influence of foreign thought on the English thought. The fourth volume, 'The History of the English Society', is a survey of the society of the English-speaking world, from the Middle Ages to the present. It covers the development of the society in its various forms, from the feudalism to the modern society, and includes a detailed account of the influence of foreign society on the English society. The fifth volume, 'The History of the English Culture', is a survey of the culture of the English-speaking world, from the Middle Ages to the present. It covers the development of the culture in its various forms, from the art to the science, and includes a detailed account of the influence of foreign culture on the English culture. The sixth volume, 'The History of the English Religion', is a survey of the religion of the English-speaking world, from the Middle Ages to the present. It covers the development of the religion in its various forms, from the Christianity to the modern religion, and includes a detailed account of the influence of foreign religion on the English religion. The seventh volume, 'The History of the English Law', is a survey of the law of the English-speaking world, from the Middle Ages to the present. It covers the development of the law in its various forms, from the common law to the modern law, and includes a detailed account of the influence of foreign law on the English law. The eighth volume, 'The History of the English Education', is a survey of the education of the English-speaking world, from the Middle Ages to the present. It covers the development of the education in its various forms, from the medieval education to the modern education, and includes a detailed account of the influence of foreign education on the English education. The ninth volume, 'The History of the English Science', is a survey of the science of the English-speaking world, from the Middle Ages to the present. It covers the development of the science in its various forms, from the medieval science to the modern science, and includes a detailed account of the influence of foreign science on the English science. The tenth volume, 'The History of the English Art', is a survey of the art of the English-speaking world, from the Middle Ages to the present. It covers the development of the art in its various forms, from the medieval art to the modern art, and includes a detailed account of the influence of foreign art on the English art. The eleventh volume, 'The History of the English Music', is a survey of the music of the English-speaking world, from the Middle Ages to the present. It covers the development of the music in its various forms, from the medieval music to the modern music, and includes a detailed account of the influence of foreign music on the English music. The twelfth volume, 'The History of the English Drama', is a survey of the drama of the English-speaking world, from the Middle Ages to the present. It covers the development of the drama in its various forms, from the medieval drama to the modern drama, and includes a detailed account of the influence of foreign drama on the English drama. The thirteenth volume, 'The History of the English Film', is a survey of the film of the English-speaking world, from the Middle Ages to the present. It covers the development of the film in its various forms, from the medieval film to the modern film, and includes a detailed account of the influence of foreign film on the English film. The fourteenth volume, 'The History of the English Television', is a survey of the television of the English-speaking world, from the Middle Ages to the present. It covers the development of the television in its various forms, from the medieval television to the modern television, and includes a detailed account of the influence of foreign television on the English television. The fifteenth volume, 'The History of the English Radio', is a survey of the radio of the English-speaking world, from the Middle Ages to the present. It covers the development of the radio in its various forms, from the medieval radio to the modern radio, and includes a detailed account of the influence of foreign radio on the English radio. The sixteenth volume, 'The History of the English Press', is a survey of the press of the English-speaking world, from the Middle Ages to the present. It covers the development of the press in its various forms, from the medieval press to the modern press, and includes a detailed account of the influence of foreign press on the English press. The seventeenth volume, 'The History of the English Internet', is a survey of the internet of the English-speaking world, from the Middle Ages to the present. It covers the development of the internet in its various forms, from the medieval internet to the modern internet, and includes a detailed account of the influence of foreign internet on the English internet. The eighteenth volume, 'The History of the English Space', is a survey of the space of the English-speaking world, from the Middle Ages to the present. It covers the development of the space in its various forms, from the medieval space to the modern space, and includes a detailed account of the influence of foreign space on the English space. The nineteenth volume, 'The History of the English Environment', is a survey of the environment of the English-speaking world, from the Middle Ages to the present. It covers the development of the environment in its various forms, from the medieval environment to the modern environment, and includes a detailed account of the influence of foreign environment on the English environment. The twentieth volume, 'The History of the English Society', is a survey of the society of the English-speaking world, from the Middle Ages to the present. It covers the development of the society in its various forms, from the medieval society to the modern society, and includes a detailed account of the influence of foreign society on the English society.

# SUBJECT INDEX

## A

Abortion  
fetal indications for, 133-44

Absorption  
intestinal  
malabsorption of glucose-galactose, 401-2  
malabsorption from lymphoma, 19-24  
normal, 391-93

Acid  
as product of leukocytic metabolism, 45-46

Acid phosphatase  
in amniotic cell culture, 141

Acromegaly  
proinsulin secretion in, 12

Actin  
-myosin binding, 376  
structure and function of, 374-76, 378, 384  
-tropomyosin, 379

$\alpha$ - and  $\beta$ -Actinin  
isolation and characterization of, 382

Actinomycin D  
on insulin biosynthesis, 4

Actomyosin  
ATPase of, 376-77  
regulation of, 380-81

Addison's disease  
see under Diseases

Adenocarcinoma  
antigen for, 85-86

Adenoma  
islet cell  
and discovery of proinsulin, 2

Adenosine diphosphate (ADP)  
binding to myosin, 373

Adenosine triphosphatase (ATPase)  
actomyosin, 376-77  
regulation of, 380-81  
relationship to myosin subunit interactions, 371-72

Adenosine triphosphate (ATP)  
mechanism of enzymatic splitting of, 374  
myosin binding of, 373  
S-Adenosyl methionine and Parkinsonism, 309-10

Adipocytes  
in obesity, 238-40  
Adipose tissue  
obesity effects on, 236, 238-40  
Adrenal corticosteroids  
in obesity, 236  
Adrenocorticotropin (ACTH)  
on lymphocytes, 194  
Agammaglobulinemia  
deficits in immunity with, 27-30, 35  
Increased malignancy incidence in, 214

Age  
and macular degeneration, 95-102  
and myosin changes, 383

Alcoholism  
myopathy with, 125-32, 360

autopsy results, 129-30  
cardiomyopathy of, 360  
classification of, 125-31  
frequency of, 126-27  
histopathology of, 128-29  
introduction to, 125  
pathogenesis, 130  
treatment of, 131

Alkaline phosphatase  
in amniotic cell culture, 141

Allopurinol  
maculopathies from, 95

D-Amino acid oxidase  
in leukocytes, 44

Aminopterin  
fetal effects of, 137

Amniocentesis  
to study state of fetus, 159

Amphetamines  
in Parkinsonism, 308

Amphibian skin  
kinins from, 64

Amphotericin B  
and superinfections, 34

$\alpha$ -Amylase  
in starch digestion, 393-94

Amyloidosis  
papillary muscle dysfunction in, 331

Anaphylactic shock  
kinins in, 72, 76

Anatomy  
of lymphoid system,

186-93  
of macular region, 95-98

Anemia  
factors involved in, 227-31  
abnormal hemoglobins, 229  
hemolytic  
leukocyte deficit in, 51  
iron deficiency  
leukocyte problems in, 55

Anemometer recorders  
to monitor respiratory failure, 295

Anesthesiologists  
inhalation therapists to assist, 279

Aneurysms  
on cardiac contractility, 358-61  
surgical resection of, 361  
Angina pectoris  
papillary muscle dysfunction from, 331, 336  
role of asynergy in, 361-62

Anoxia  
papillary muscle dysfunction from, 331

Antibody  
antisheep erythrocyte  
inhibitory effects of, 206-7

Antibody variability, 145-70  
basis of, 158-61  
theories of origin, 158-60

concluding remarks, 163  
immunoglobulin structure, 145-60

distribution of disulfide bridges, 146

evolution of, 146-47

IgA, 148-49

IgG, 148

IgM, 148-49

introduction to, 145  
relationship to activity, 161-63

separate genetic systems for C- and V-regions, 149-58

amino acid interchanges in heavy chains, 150

amino terminal sequences of heavy and light chains of two paraproteins from one patient, 157

- heavy chains, 154-58  
light chains, 149-54  
minimum genetic systems for, 154  
subgroups of variable kappa, lambda, and heavy chains, 151
- Anticoagulants  
to prevent thromboembolism after valve replacement, 344
- Antigen  
carcinoembryonic, 85-88  
assessment of, 87  
circulation of, 88  
diagnostic importance of, 88  
sources of, 86  
tumor-specific, 85-94
- Antimalarials  
maculopathies from, 95
- Antimicrobials  
with enzyme activity, 47-49  
lysozyme, 47  
myeloperoxidase, 47-49  
without enzyme activity, 46-47  
granular cationic proteins, 46-47  
lactoferrin, 47
- Antimycin A  
on insulin biosynthesis, 4
- $\alpha$ 1-Antitrypsin  
see  $\alpha$ 1-Antitrypsin
- $\alpha$ 1-Antitrypsin  
assay techniques, 284
- $\alpha$ 1-Antitrypsin deficiency  
and pulmonary emphysema, 283-92  
antitrypsin deficiency and extrapulmonary disease, 289-90  
homozygous deficiency and disease, 285-87  
other genetic factors in chronic obstructive pulmonary disease, 290  
postulated mechanism of disease production, 289  
proteinase inhibitors, 283-85  
significance of heterozygous deficiency, 287-89
- Aortic regurgitation  
after valve replacement, 340-50
- Apnea  
detection of, 294-95  
see also Respiration
- Apomorphine  
in Parkinsonism, 311, 319-20
- Aqueous humor  
treponemes in, 103
- Argininosuccinase  
in amniotic cell culture, 141
- Arteriosclerosis  
treatment at nurse clinics, 273
- Arthritis  
kinins in, 75  
treatment at nurse clinics, 274
- Arylsulfatase A  
in amniotic cell culture, 141
- Aspergillus  
superinfection by, 32
- Asthma  
kinins in, 76
- Asynergy  
cardiac, 358-61  
in angina and myocardial infarction, 361-63
- Ataxia telangiectasia  
see under Syndromes
- Azurophil granules  
in leukocytes, 40
- B**
- Bartholin-Patau syndrome  
see under Syndromes
- Behavior  
and obesity, 236
- Biogenic amines  
intraneuronal distribution of, 312-14  
and manganese, 306
- Blastogenic factor  
from lymphocytes, 202
- Blood  
monitoring  $PO_2$ ,  $PO_2$ , and pH of, 299  
typing of fetal, 140
- Bone  
cancer of antigen for, 90
- Bone marrow  
lymphopoiesis in, 190-94, 208  
proliferation of myeloid cells, 171-72, 175-81  
transplant or transfusion of, 211
- Bowel  
cancer of antigen for, 86
- Bradykinin  
agents suppressing, 74  
amino acid sequence of, 84  
in inflammation, 73-75  
in shock, 72  
specific inhibition of, 79  
structure/activity of, 79  
vascular effects of, 73
- Brain  
in obesity, 238  
in Parkinsonism  
neuropharmacology of, 314-15
- Breast  
tumors of antigen for, 90
- Breathing  
monitoring of, 293-304  
see also Respiration
- Bromide  
as antimicrobial cofactor, 48-49
- Bruch's membrane  
description of, 97-98
- Brush border  
carbohydrate absorption and digestion in, 391-92  
diseases affecting, 396-97
- Burns  
kinins in, 73-74  
leukocyte abnormalities in, 54
- Bursa of Fabricius  
immunologic role of, 189-90, 204-6
- C**
- Cachexia  
and capillary muscle dysfunction, 331
- Calcium  
and cardiac contractility, 356  
in muscle contraction, 365  
troponin effects on, 381
- Calories  
to maintain obesity, 236
- Cancer  
antigenic reversion in, 85-94  
carcinoembryonic antigen of human digestive system, 85-88  
evidence for, 88-91  
mechanism of, 91-92  
diagnosis of with antigen, 88
- Candida  
superinfection by, 32
- Carbenicillin  
in treatment of superinfections, 34
- Carbohydrates  
intestinal digestion and mal-digestion of, 391-404  
defective, 393-402  
normal, 391-93  
summary, 402
- intracellular muscle metabolism of ethanol effects on, 131

- in man's diet, 391-92  
in obesity, 239, 241
- Carbon dioxide  
monitoring in gas phase,  
298
- Carboxypeptidase N  
as kinase, 67-68,  
77
- Carcinoembryonic antigen  
see Antigen
- Carcinogenesis  
derepressive-dedifferentia-  
tion during, 91
- Carcinoma  
kinins in, 69-71  
metastatic  
papillary muscle dysfunc-  
tion from, 331
- Cardiomyopathy, degenerative  
papillary muscle dysfunc-  
tion in, 331
- Catalase  
on leukocyte activity,  
46
- Catecholamines  
in carcinoid tumors, 69,  
77  
and Parkinsonism, 309
- Celiac sprue  
see under Diseases
- Cells  
blast  
in myelocytic leukemia,  
178  
differentiation  
immune response as model  
for, 158  
maturation of  
biochemistry of, 177  
myeloid  
proliferation of, 171-  
84  
stem  
classes of, 174  
lymphocytic, 187, 208  
and proliferating pools,  
174-76  
see also specific cell types,  
e.g., Erythrocytes, etc.
- Cerebrum  
tumors of  
antigens for, 90
- Chediak-Higashi syndrome  
see under Syndromes
- Chemotactic factor  
in lymphocytes, 202-3
- Childbirth  
kinin levels in, 73
- Children  
antitrypsin deficiency in,  
289  
chronic granulomatous dis-  
ease of, 50-53  
glucose-galactose malabsorp-  
tion in, 402  
immunological deficiency  
syndromes of, 209-12
- lactose intolerance in,  
394-401  
smallpox vaccination of,  
254, 267-69  
tumors of  
antigens in, 89-90  
see also Pediatrics
- Chloramphenicol  
on leukocytes, 55
- Chloride  
as antimicrobial cofactor,  
46-48
- Chloroquine  
on leukocytes, 55
- Cholesterol  
in obesity, 236, 240
- Choline  
in Parkinsonism, 317
- Chordae tendineae  
in papillary muscle dysfunc-  
tion, 330, 333, 341
- Chromium-51  
study of myeloid prolifera-  
tion, 172
- Circulation  
recirculation of lymphocytes,  
192-93  
systemic disturbances of  
papillary muscle dysfunc-  
tion from, 331
- Colchicine  
on leukocytes, 55
- Cold  
adaptation to  
fat production in, 247
- Colon  
cancer of  
antigen for, 86-88,  
90  
irritable  
disaccharidase deficiency  
in, 397
- Colostrum  
proteinase inhibitor in,  
283
- Computers  
to monitor respiratory fail-  
ure, 299-302
- Connecting peptide (C-peptide)  
biological activity of, 15  
comparative aspects of,  
10  
fate of, 5  
immunology of, 9  
isolation of, 7-8  
preparation of labeled C-  
peptide, 8-9  
secretion of, 11, 13  
structure of human, 8
- Coronary artery  
asynergy from disease of,  
358-60
- Corpsmen, military  
preceptorship civilian pro-  
gram for, 280
- Corticosteroids  
on leukocytes, 55
- Cortisol  
and obesity, 244-45
- Corynebacterium xerosis  
endocarditis from,  
347
- C-peptide  
see Connecting peptide
- Creatine phosphokinase (CPK)  
in alcoholic myopathy, 125-  
28, 130
- Cryptococcus neoformans  
superinfection by, 30
- Cystathione synthase  
in amniotic cell culture,  
141
- Cysteine  
kinin enhancement by,  
78
- Cystic fibrosis  
disaccharidase deficiency  
in, 397-99
- Cytomegalovirus  
superinfection by, 30-  
33
- Cytosine arabinoside  
in superinfection, 35
- D
- Decarboxylase inhibitors  
on dopa concentrations,  
315
- Deoxyribonucleic acid (DNA)  
synthesis of  
in lymphocytes, 214
- $\alpha$ -Dextrinase  
deficiency of, 401
- Diabetes mellitus  
fetal effects of maternal,  
134-35  
 $\alpha$ -globulin in, 285  
and obesity, 238, 241
- bis-Diazotized benzidine  
hemagglutination  
to study cancer antigens,  
87
- Dibutyl cyclic adenosine  
3',5'-monophosphate  
on insulin, 4, 10
- DiGeorge's syndrome  
see under Syndromes
- Digestion  
of carbohydrates  
defective, 393  
by intestinal epithelial  
cell, 392-93  
intraluminal, 391-92  
normal, 391-93
- Digestive tract  
carcinoembryonic antigen  
of, 85-88
- Disopropylfluorophosphate  
(labeled)  
to study myeloid cell prolif-  
eration, 172
- Diphenylhydantoin sodium  
on lymphoid system, 194

- lymphoma, 214
  - 2, 3-Diphosphoglycerate (DPG) and hemoglobin function, 226-27, 231
  - Diplococcus pneumoniae superinfection by, 30
  - Disaccharidase deficiency of, 394-401
    - clinical syndrome, 394
    - diagnosis of, 394-96

 current U.S. policy, 255-  
 56  
 hazards of, 251, 256-63  
 accidental infection,  
 258  
 definitions and clinical  
 considerations, 257-61  
 eczema vaccinatum, 259-  
 60  
 general comments, 256-  
 57  
 generalized vaccinia, 258-  
 59  
 incidence rates, 261-  
 62  
 other, 260-61  
 post-vaccinal encephalitis,  
 257-58  
 prevention of, 262-63  
 urticaria, 259  
 vaccinia necrosum, 260  
 immunity produced by, 254-  
 55  
 general considerations,  
 254-55  
 immunity conferred by,  
 255  
 introduction to, 251-54  
 major objections to elimina-  
 tion of, 267-69  
 risks versus benefits of  
 routine infant vaccination,  
 266-67  
 Smoking  
 and lung disease, 286  
 Snake venoms  
 kinins in, 65  
 Sodium  
 in intestinal carbohydrate  
 transport, 393, 402  
 Sphingomyelinase  
 in amniotic cell culture,  
 141  
 Spinal fluid  
 spirochetes in, 112-14  
 Spirochetes  
 photomicrographs of,  
 112  
 Spirometers  
 to monitor respiratory fail-  
 ure, 295-96  
 Spleen

atrophy of  
 and celiac sprue, 21-  
 22  
 immune response of, 197  
 lymphocyte recirculation  
 in, 192-93, 197  
 in obesity, 238  
 Sprue  
 see under Diseases  
 Staphylococcus  
 endocarditis from, 347  
 Staphylococcus albus  
 antimicrobials active  
 against, 47  
 Staphylococcus aureus  
 in chronic granulomatous  
 disease of childhood,  
 50, 52  
 superinfection by, 30  
 Starch  
 intestinal digestion of, 391-  
 92  
 problems in, 393-94  
 Starvation  
 on blood constituents and  
 nitrogen excretion  
 in lean and obese subjects,  
 242  
 Sterilization  
 of carriers of hereditary  
 diseases, 142  
 Stomach  
 cancer of  
 antigen for, 86, 90  
 Streptococcus pyogenes  
 antimicrobials active  
 against, 47  
 Streptolysin  
 on leukocyte activity,  
 55  
 Stress  
 lymphopenia from, 194  
 Sucrase  
 deficiency, 401  
 normal values of, 396  
 Sucrose  
 intestinal digestion of, 391-  
 92  
 Sulfolipoprotein antigen,  
 fetal (FSA)  
 in cancer, 90  
 Sulfonamides  
 on superinfections, 34-  
 35  
 Superinfection  
 in lymphoreticular diseases,  
 25-38  
 clinical features, 32  
 correlation of diseases,  
 immunologic deficits,  
 and superinfecting organ-  
 isms, 30  
 defects in cellular immunity,  
 27-28  
 defects in humoral and  
 cellular immunity, 28-  
 29

- defects in humoral immunity, 27  
 diagnosis, 33-34  
 differentiation and function of immunologic defenses, 25-26  
 infecting microorganisms associated with lymphoreticular diseases, 29-32  
 treatment of, 32-35
- Surgery**  
 complications of heart valve replacements, 343-54  
 resection of aneurysms, 361
- Syndromes**  
 adrenal-genital (congenital adrenal hyperplasia) in utero diagnosis of, 142  
 ataxia-telangiectasia lymphocyte inhibitor in, 213-14  
 superinfection in, 30  
 Bartholin-Patau's in utero diagnosis of, 140  
 carcinoid  
   kinins in, 69-71  
 cartilage-hair hypoplasia immunologic problems in, 27, 30  
 Chediak-Higashi  
   leukocyte impairment in, 53-54  
 chronic granulomatous disease of childhood  
   leukocyte impairment in, 50-53  
 DiGeorge's  
   immunological problems with, 27, 30-31, 35  
   lymphocytes in, 211-12  
 Down's  
   in utero diagnosis of, 140, 142  
 Duchene and Becker therapeutic abortion to prevent, 142  
 dumping  
   kinins in, 71  
 Edwards'  
   in utero diagnosis of, 140  
 glucose-galactose malabsorption, 401-2  
 Guillain-Barre  
   lymphocytes in, 214  
 Hashimoto's thyroiditis reticulosis complicating, 21  
 heritable obesity, 238  
 Hunter's  
   abortion to prevent, 140  
 Hurler's  
   in utero diagnosis of, 140
- immunological deficiency lymphocytes in, 209-12  
 Job's  
   leukocyte deficit in, 51  
 Klinefelter's  
   problems of in utero sex diagnosis in, 140  
 Lasch-Nyan hyperuricemia abortion as prevention of, 142  
 Lowe's  
   abortion as prevention of, 142  
   oligo- and disaccharidase deficiencies, 394-99  
 papillary muscle, 334  
 pharyngeal pouch immunological problems in, 27, 30-31  
 respiratory distress of infants  
   serum trypsin inhibitor in, 290  
 reticular dysgenesis lymphocytes in, 209  
 Sanfilippo's  
   in utero diagnosis of, 140  
 Seeger  
   lymphoid deterioration in, 213  
 Turner's  
   difficulty of in utero diagnosis of sex of fetus with, 140  
 Wiskott-Aldrich  
   cause and treatment of, 213  
   immunological problems in, 28, 30, 35
- Syphilis**  
 as complication of vaccination, 257  
 immunity problems in, 116-17  
 optic atrophy in, 103-18  
   ophthalmoscopic classification, 104  
   perimetric classification, 104  
   photos of fundus in, 11  
   serology, 113  
   summary of, 117-18  
   visual fields, 105, 108  
 tests for unreliability/reliability of, 105
- Systolic murmur, apical and papillary muscle dysfunction, 333-35, 338-39**
- T**
